

INSTRUCTION

High School Graduation Requirements

Publication of Graduation Requirements

Prior to registering in high school, and each year thereafter, each student and his/her parents or guardians will be provided with a copy of the current graduation requirements in effect for that student (those in effect when the student enrolled in ninth grade unless ten years have elapsed). Graduation requirements shall also be included in the student handbook.

High School Completion

Each student is to develop, have on file, and update as necessary a high school completion plan approved by the parent/guardian. Counselors will provide assistance to incoming ninth graders and their families in developing educational plans. Changes in plans should normally reflect parent consent and should be submitted to the appropriate counselor. At the conclusion of each year the school will provide the student and his/her parents or guardians with a report which reflects the progress that has been made toward satisfying the graduation requirements. If progress is not adequate the school will identify alternative courses that can be taken to correct the deficiencies.

Required Subject Areas and Credits

The following credits and subject areas of study shall be required of each candidate for graduation:

	Class of 2015-2020	Class of 2021 and Beyond
<u>Subject</u>	<u>Credits</u>	<u>Credits</u>
English	4	4
Mathematics	3	3
Science	2	3
Social Studies	3	3
Visual or Performing Arts	1	2
Health and Fitness	2	2
Career and Tech Ed		1.5
Occupational Education	1.5	
World Language		2
Electives	<u>5.5</u>	<u>3.5</u>
Total	22	24

Credits

All students have the opportunity to take at least 24 credits during their high school career. They are strongly encouraged to take, and successfully complete at least all 24 credits in order to be Career and College Ready. The District applied for and received a two-year waiver from the state's career and college ready graduation requirements beginning with the class of 2021 instead of the graduating class of 2019. High school credit will be awarded for successful completion of a specified unit of study. The District will establish a process for determining proficiency/mastery for credit-bearing courses of study. In this district, at a minimum, successful completion of a specified unit of study means:

1. Earning a passing grade according to the District's grading policy; and/or;
2. Demonstrating proficiency/mastery of content standards as determined by the District; and/ or
3. Successfully completing an established number of hours of planned instructional activities to be determined by the District.

The principal or designee is responsible for determining which credits will be recognized by the District for students enrolling from another state approved learning program (public school, approved private school or home school), or from out-of-state, or out-of-country. Credits from another Washington public school or accredited state private school or accredited out-of-state public or private school will be accepted to the extent the credit matches a District graduation requirement, or may be counted as an elective credit. Credits from unaccredited programs or home schools will be evaluated as described below for home school students.

Waiver of Graduation Requirements

All state requirements must be satisfied except that Washington history and government may be waived for students who have completed and passed a state history and government course in another state during grades seven through twelve and who have fulfilled study of the Washington state constitution through an alternative learning experience approved by the principal. Additionally, physical education, pursuant to RCW 28A.230.050, may be waived upon written request of a parent or guardian on account of physical disability, employment or religious belief or because of participation in directed athletics or military science and tactics. This will not alter the credit requirements established by the Board.

The following procedure shall be followed in graduation waiver requests:

- A. The principal is responsible for evaluating educational experiences of individual students and recommending graduation to the superintendent when requirements have been met.

An individual student may be granted an exemption from any requirement in this policy if such requirement impedes the progress toward graduation provided there is a direct relationship between the failure to meet the requirement and the student's ability. When a 12th grade student transfers

from another high school, the student may be permitted to graduate with a lesser number of credits provided that minimum state-course and credit requirements are satisfied and the student successfully passes a full schedule of classes during his/her 12th year of school.

- B. Waiver of graduation requirements is determined by the principal. The procedure for processing requests for waiver shall be as follows:
1. Request will be initiated by the parent/guardian or the eligible student;
 2. The principal will investigate the request for waiver of graduation requirements;
 3. The principal will make a determination in writing based upon appropriate data and upon conclusions of the investigation;
 4. The principal will develop appropriate record keeping procedures for storage of all pertinent data relating to each waiver request; and
 5. The parent or eligible student will be notified that an appeal to the decision on waiver requests may be made in writing to the superintendent no later than 30 days prior to the anticipated graduation date.

Other Credit Options

Credit toward graduation requirements may be granted for planned learning experiences primarily conducted away from the facilities owned, operated, or supervised by a district. A maximum of two (2) credits that are earned from off-site or alternative courses may be applied to a student's minimum requirements for graduation.

A proposal for approval of out-of-school learning activities will be submitted prior to the experience, will be at no additional cost to the District, and will include at least the following information:

- A. The objective(s) of the program;
- B. The teaching component(s) of the program, including where and when teaching activities will be conducted by school district certificated staff;
- C. A schedule of the duration of the program, including beginning and ending dates within the school year;
- D. A description of how student performance will be supervised, evaluated, and recorded by the certificated staff or by qualified school district employees under the direct supervision of the certificated staff;
- E. A description of intervention techniques and criteria for their use;
- F. Description of how student performance will be assessed;
- G. Qualifications of instructional personnel; and
- H. Plans for evaluation of program.

A list of approved programs shall be kept on file in the superintendent's office. Reasons for approval or disapproval shall be communicated to those making the request.

Credit for Work Experience

The use of work experience as a part of the educational program of students should be regarded as part of the secondary school curriculum rather than just a device to relieve a staffing shortage. The following are the bases upon which credit may be granted for work experience.

- A. The work program will be supervised by the school.
- B. The work experience will be specifically related to the school program of the student.
- C. Credit given for work experience will represent growth in the student, and the type of work done should have definite educational value.
- D. The job in which experience is gained will provide a varied experience.
- E. A work experience program will be supplemented by an adequate program of guidance, placement, follow-up, and coordination between job and school by the career placement counselor.
- F. Work experience as a planned part of a school subject may be included in the credit given for that subject (e.g., sales training class).
- G. One credit may be granted for not less than one hundred eighty hours for instructional work based learning experience, and not less than three hundred sixty hours of cooperative work based learning experience related to a student's school program.
- H. A student participating will be legally employed and must have passed his/her sixteenth birthday.
- I. An employer's report of the student's work record, indicating satisfactory progress on the job, will be filed with the school.
- J. The regular state apprenticeship program, where the training is worked out cooperatively with the school and meets the standard for graduation requirements, is acceptable.

National Guard High School Career Training

Credit may be granted for National Guard high school career training in lieu of either required or elective high school credits. Approval by the District will be obtained prior to a student's participation in a National Guard training program as follows:

- A. MIL for 115 or an equivalent form provided by the national guard will be completed and filed with the school district; and
- B. The number of credits toward high school graduation to be granted will be calculated, agreed upon by the student and an authorized representative of the school district, and such agreement noted on MIL Form 115 or such equivalent form.

Credit toward high school graduation may be granted by the school district upon certification by a national guard training unit commander that the student has met all program requirements.

Home School Credit

Guidelines for granting high school credit for home schooling are as follows:

- A. To gain credit for a course of study, a student will provide:
 1. A journal which reflects the actual work completed during a home-study course of study; and
 2. Exhibit(s) of any specific projects completed (e.g., themes, research papers, art and/or shop projects); and/or
 3. Any such other performance-based exhibits of specific course-related accomplishments.
- B. To gain credit for a course of study, a student will demonstrate proficiency at a minimum of 80 percent of the objectives of the course. Such testing will be available as an ancillary service of the District if it is regularly available to all students. If not, the parent may engage district-approved personnel to conduct such an assessment at a cost to be determined by such personnel.
- C. Credit is granted for the following approved schools:
 1. Community colleges, vocational-technical institutes, four-year colleges and universities and approved private schools in the state of Washington; and
 2. Other schools or institutions which are approved by the District after evaluation for a particular course offering.

Graduation Ceremonies

If students fulfill graduation requirements by the end of the last term of their senior year, they may participate in graduation ceremonies. Each student shall be awarded a diploma after satisfactorily completing local and state requirements. Upon request, each graduating student will receive a final transcript. Each student will be notified of this opportunity at least one month prior to the close of the school term.

Graduation ceremonies will be conducted in the following manner:

- A. Each participating student must participate in the graduation ceremony rehearsal. Each student who participates will purchase or rent the proper cap and gown as designated by the school administration and the class advisor and officers.
- B. Caps and gowns will be worn in the proper manner, as designated by the school administration and class advisor.
- C. Students who participate will be expected to follow the school guidelines for attire.
- D. Each student who participates will be expected to cooperate with the class advisor and to participate in all parts of the graduation ceremonies.
- E. Failure to comply with the above requirements will automatically forfeit a student's privilege of participation in the graduation ceremonies.
