

STUDENTS

Student Safety and Welfare

The following guidelines are provided to minimize the occurrence of situations in which staff members may incur liability for their acts with relation to students:

1. Never leave a class of students unattended.
2. Accompany a class wherever it is assigned and remain with the class until supervision is assumed by another responsible person.
3. Do not permit students to use equipment in the classroom that has not been approved for school use.
4. Do not permit students to use equipment until they have received operating instructions and prescribed safety procedures.
5. Do not permit students to work in a shop, kitchen, or laboratory without qualified supervision.
6. Report incidents of unsafe conditions and defective equipment to principal immediately.
7. Ensure that proper safety gear is used wherever specified.

Eye Protection

Eye safety devices shall be furnished and maintained by the District and loaned without cost to students, staff, and visitors.

Regulations shall be developed to define and identify operations, activities, or areas where the use of eye protective devices shall be required.

All eye injuries should be treated by authorized medical personnel unless immediate action by staff is necessary. All eye injuries shall be reported.

Staff should fully analyze the eye hazards involved in activities for which they are responsible and explain to students the need for the type of eye protection specified in the work.
